ABOUT

From A Humble Start As A Small Distributor

In March 2003, when Blue Air started in the foodservice equipment industry, it opened with a couple lines of refrigeration equipment and a few employees in a very small office and warehouse space. Ever since these humble beginnings, Blue Air has grown steadily each year by constantly adding new products and new customers.

It has now become one of the leading suppliers in the industry with multiple distribution warehouses and sales offices nationwide.

The main driving force behind this stable growth has been its unwavering commitment to delivering:

“The best combined value of premium products, competitive price, and excellent customer service to its customers.”

Blueair

FOOD SERVICE EQUIPMENT LLC

ABOUT

Now a Leading Manufacturer and Supplier

After 15 years in business, Blue Air is establishing itself as a solid manufacturer and supplier of premium quality products in the foodservice equipment industry through its recent merger with BLUENIX, a leading manufacturer of commercial refrigeration and ice machines in South Korea since 1981. This is a new landmark for Blue Air's future in terms of its ability to meet the market's needs and its potential for an increased level of growth.

Now, Blue Air offers its customers a wider range of product selections on both cold and hot lines, from vast lines of superior quality commercial refrigeration and ice machines to value lines of stainless steel items and commercial cooking equipment. Our prices have always been very competitive based on the value of materials, design features built into our products and the stellar service that has been provided to support our products. Blue Air provides the best warranty program in the industry along with the most attentive technical service through its over 700 member nationwide service network. Delivering "The best combined value of premium products, competitive price, and excellent customer service" is not a simple promise we made to our customers, but it is a real practice of our business on a day to day basis.

OUR MISSION

To serve our customers with passion.

To continuously improve our processes and ensure the ownership experience of our products consistently delivers the highest quality equipment, competitive pricing, and support.

DESIGN

Elegance

The stainless steel exterior, characterized by its elegance, enhances any environment while upholding a sense of cleanliness.

The touch-panel digital temperature control and monitoring system introduce a level of technological sophistication and sleek design unparalleled by any other commercial refrigeration option.

WARRANTY

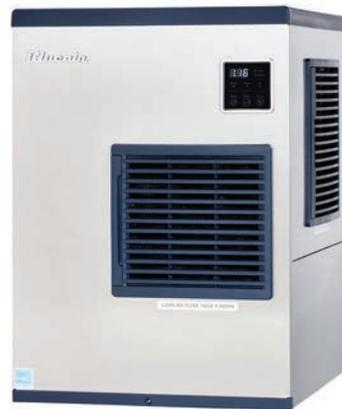

We take pride in providing reliable and durable refrigeration and cooking equipment that you can trust.

Our warranty coverage is a testament to our commitment to your satisfaction and peace of mind. Should any issues arise with your equipment during the warranty period, our dedicated support team is ready to assist you promptly, ensuring minimal downtime for your business.

With our warranty, you can invest in our refrigeration and cooking solutions with confidence, knowing that we stand behind our products' performance and reliability.

Your success is our priority, and our warranty is a reflection of our dedication to your culinary and refrigeration needs.

Eco Friendly

ENVIRONMENTAL PROTECTION

Blue Air stands as a prominent company in the realm of commercial cooling, recognized not only for our expertise but also for our unwavering commitment to the environment.

Environmental protection is a core mission of ours, and we are dedicated to making a positive impact. In pursuit of this goal, we have implemented lean production practices to minimize the use of materials that have adverse effects on the ecosystem, replacing them with more environmentally friendly alternatives.

REFRIGERATORS AND FREEZERS

REACH IN

- Durable stainless steel exterior and interior
- Self-diagnostic digital temperature control and monitoring system
- Heavy duty 4" diameter front locking swivel casters
- Standard door locks with self-closing and stay open doors
- Cyclopentane Insulation - Environmentally friendly HFC free foam insulated units
- R-290 refrigerant - increase energy efficiency by up to 25% compared to HFC refrigerants
- Glass door units accommodate full-size sheet pans
- Rear mounted evaporator pans on all top mount units
- All models equipped with NEMA 5-15 power plugs
- Electro deposition coated evaporator for increased performance
- Lifetime guaranteed heavy duty all metal door handles
- LED interior lighting
- Refrigerator temperature range between 33°F ~ 39°F
- Freezer temperature range between -10°F ~ 5°F
- Proofers temperature range between 56°F ~ 59°F

BOTTOM-MOUNT REACH-IN REFRIGERATOR/FREEZER

GLASS DOOR MERCHANDISER

BAGR7W-HC

COUNTER TOP VERSION

- Fluorescent lit display panel and interior
- Triple-paned glass door
- Adjustable legs for leveling – no casters

- Black or white painted steel exterior and white painted steel interior
- High density foamed in place polyurethane insulation - Environmentally safe
- Sturdy, epoxy coated wire shelves with adjustable shelving height
- 4 shelves per compartment.
- Four 4" Diameter swivel casters with front brakes standard.
- Front sliding refrigeration unit allows the unit to be serviced without being moved.
- Self-contained system, bottom mounted compressor provides quick and easy maintenance.
- Epoxy coated evaporator reduces potential corrosion
- Fabric condensation
- Refrigerator temperature range between 33°F ~ 39°F
- Freezer temperature range between 0°F ~ -10°F
- Digital temperature control & monitor system
- Keep food products safe by maintaining constant temperatures
- Programs interpret the condition of refrigeration
- Controls include automatic evaporator fan motor delays

	Model	Cu.Ft	Shelves	Weight	HP	AMP / Voltage

BLUELAVA

Your one-stop destination for all your
hot equipment needs

We believe that everyone deserves access
to reliable and efficient hot equipment, and
we're here to make that happen

HOT EQUIPMENT

DEEP FRYER

Stainless steel exterior with a welded tank for durability.

It has heavy-duty burners with standing flames and standby pilots for reliability.

The high-quality thermostat maintains temperatures between 200°F-400°F automatically

Safety valve with voltage stabilization and an oil cooling zone to capture food particles and prolong oil life.

Legs option is available

	Weight	Gas Source	Burner Count	Single Burner	Combined	Gas Pressure	Nozzel	Oil Tank Capacity

BLF5 NG/LPG

HOT EQUIPMENT

STOCK POT

Stainless steel sides and a front valve cover, stainless steel tubing for pilots, and pilot tips for each burner ring, along with stainless steel legs. Robust cast-iron three-ring burner, boasting an impressive 40,000 BTU/h for each burner. Each burner is thoughtfully equipped with two continuous pilots for enhanced reliability. Two manual controls, allowing independent operation of the inner and outer burner rings. 3/4" NPT rear gas connection and a regulator for your convenience.
